In addition to members of the Editorial Board, the following scientific referees contributed generously of their knowledge, expertise, and time to review and to evaluate the suitability of typescripts submitted for publication to THE AMERICAN JOURNAL OF OPHTHALMOLOGY between November 1, 1983, and October 31, 1984. The Editorial Board is ever mindful of their generous contribution to the integrity and accuracy of THE JOURNAL.

SUBJECT INDEX

Note: Abstract Index follows Author Index

A

Acetazolamide
Local ocular hypotensive effect of topically applied acetazolamide, 66
Acquired immune deficiency syndrome
Acquired immune deficiency syndrome retinopathy, pneumocystis, and cotton-wool spots (editorial), 235
Microvascular aspects of acquired immune deficiency syndrome retinopathy, 590
Acyclovir
Acyclovir in the treatment of herpetic stromal disease, 537
Adduction
Pseudo-internuclear ophthalmoplegia after surgical paresis of the medial rectus muscle, 602
Adenocarcinoma
19-9 monoclonal antibody study of adenocarcinoma metastatic to the choroid (letter), 815
Adenoma
Pituitary apoplexy associated with cardiac surgery, 291
Adenovirus
Interferon treatment of adenoviral conjunctivitis, 429
Albinism
Albinotic characteristics in congenital nystagmus (correspondence), 121
Albinotic characteristics in congenital nystagmus (correspondence), 650
Allopurinol
Allopurinol and cataracts, 355
Amblyopia
Pulfrich effect in anisometropic amblyopia and strabismus, 499
Ametropia
Direct measurement of strabismic deviation in highly ametropic patients (letter), 114
Amyloid
Lack of evidence for protein AA reactivity in amyloid deposits of lattice corneal dystrophy and amyloid corneal degeneration, 216
Amyloidosis
Immunoglobulin deposition in localized conjunctival amyloidosis, 617
Angioid streaks
Angioid streaks associated with hereditary spherocytosis (correspondence), 647
Angioma
Cavernous hemangioma of the retina, cutaneous angiomas, and intracranial vascular lesion by computed tomography and nuclear magnetic resonance imaging, 483
Angle-closure glaucoma
Antiglaucomatous ciliary body excision, 344
Corneal endothelial changes after argon laser iridotomy, 153
Endothelium in primary angle-closure glaucoma, 103
Laser iridectomy in the management of chronic angle-closure glaucoma, 446
Ankylosing spondylitis
Association of Gm allotypes with the occurrence of ankylosing spondylitis in HLA-B27-positive anterior uveitis, 732
Anterior chamber
Anterior chamber membranectomy in pseudophakic endophthalmitis (letter), 239
Effect of sodium hyaluronate on endothelial cell damage during extracapsular cataract extraction and posterior chamber lens implantation, 759
Antibiotic drugs
Clinical evaluation of trimethoprim-containing ophthalmic solutions in humans, 11
Penetrating keratoplasty for exogenous *Paecilomyces* keratitis followed by postoperative endophthalmitis, 552
Antibody
19-9 monoclonal antibody study of adenocarcinoma metastatic to the choroid (letter), 815
T-lymphocyte subsets in the aqueous humor and peripheral blood of patients with acute untreated uveitis, 62
Antigen
Association of Gm allotypes with the occurrence of ankylosing spondylitis in HLA-B27-positive anterior uveitis, 732
Expression of HLA antigens by cells in the human cornea, 763
Histocompatibility antigens in sympathetic ophthalmia (letter), 117
HLA-B12 and HLA-B27 antigens in keratoplasty (correspondence), 245
Immunoglobulin deposition in localized conjunctival amyloidosis, 617
Skin test with varicella-zoster virus antigen for ophthalmic herpes zoster, 7
Skin test with varicella-zoster virus antigen for ophthalmic herpes zoster (correspondence), 825
Aphakia
Neodymium-YAG laser therapy to the anterior hyaloid in aphakic malignant (ciliovitreal block) glaucoma, 137
Transscleral ruby laser cyclocoagulation, 788
Aqueous humor
Effect of indomethacin on the ocular hypotensive action of timolol maleate, 79
Effect of intraocular lens fixation on the blood-aqueous barrier, 451
Piperacillin levels in human tears and aqueous humor, 17
Piperacillin levels in human tears and aqueous humor (correspondence), 821
T-lymphocyte subsets in the aqueous humor and peripheral blood of patients with acute untreated uveitis, 62
Arecoline
Arecoline miosis (letter), 514
Astigmatism
Changes in corneal curvature induced by sutures and incisions, 773
Azathioprine
Wegener's granulomatosis with destructive ocular manifestations, 736

B

B cell
Polymorphic B-cell lymphoma of the eyelid (letter), 634
Behçet's disease
Natural killer cell activity in patients with Behçet's disease (letter), 813
Beta-blocker
Effect of indomethacin on the ocular hypotensive action of timolol maleate, 79
Ocular beta-blockers and systemic effects (editorial), 623
Blepharitis
Clinical evaluation of trimethoprim-containing ophthalmic solutions in humans, 11
Methicillin-resistant *Staphylococcus epidermidis* blepharitis, 562
Blepharokeratoconjunctivitis
Absolute IgG4 deficiency and recurrent bacterial blepharokeratoconjunctivitis (letter), 243
Blepharoptosis
Anatomic changes in involutional blepharoptosis, 21
Assessing levator palpebrae superioris muscle function in infants (letter), 377
Pituitary apoplexy associated with cardiac surgery, 291
Timolol-associated myasthenia gravis (letter), 244
Vertical tarsal buckling as a complication of levator aponeurosis repair for acquired blepharoptosis (correspondence), 645
Blepharospasm
Biofeedback therapy of essential blepharospasm, 28
Blindness
Computed tomographic evaluation of the optic canal in sudden traumatic blindness, 751
Hydrocephalus and transient cortical blindness (letter), 819
Neodymium-YAG capsulotomy and potential blindness (letter), 521
Blood-aqueous barrier
Effect of intraocular lens fixation on the blood-aqueous barrier, 451

Photocoagulation in Glaucoma and Anterior Segment Disease, by Belcher, C. D., III, Thomas, J. V., and Simmons, R. J. (eds.), 385
The Retinoids. Volumes 1 and 2, by Sporn, M. B., Roberts, A. B., and Goodman, D. S. (eds.), 658
Visual Disorders in the Handicapped Child (Volume 5 in the Pediatric Habilitation series), by Goble, J. L., 828
Visual System in Myelin Disorders, by Neetens, A., Lowenthal, A., and Martin, J. J. (eds.), 654

Bowman's layer
Congenital corneal opacification secondary to Bowman's layer dysgenesis, 320

C

***Candida* sp.**
Successful treatment of postoperative *Candida* endophthalmitis in an eye with an intraocular lens implant (correspondence), 648

Capsule
Vitreous changes after neodymium-YAG laser irradiation of the posterior lens capsule or mid-vitreous (correspondence), 381

Capsulotomy
Effect of primary capsulotomy with extracapsular surgery on the incidence of pseudophakic cystoid macular edema, 166
Effect of sodium hyaluronate on endothelial cell damage during extracapsular cataract extraction and posterior chamber lens implantation, 759
Neodymium-YAG capsulotomy and potential blindness (letter), 521
Progressive glaucomatous visual field loss after neodymium-YAG laser capsulotomy (letter), 632
Retinal detachment following neodymium-YAG laser capsulotomy (correspondence), 248
Retinal detachment following neodymium-YAG laser capsulotomy (correspondence), 249

Carotid artery
Acute sectorial choroidal ischemia, 707

Cataract
Allopurinol and cataracts, 355
Effect of primary capsulotomy with extracapsular surgery on the incidence of pseudophakic cystoid macular edema, 166
Effect of sodium hyaluronate on endothelial cell damage during extracapsular cataract extraction and posterior chamber lens implantation, 759
Inhibitor of vascular endothelial cell growth in the lens (correspondence), 123
Light-induced maculopathy, 488
Short- and long-term endothelial cell loss associated with cataract extraction and intraocular lens implantation (correspondence), 246
Update of intraocular lenses implanted in the United States (letter), 238

Cefoperazone
Methicillin-resistant *Staphylococcus epidermidis* blepharitis, 562

Central serous choroidopathy
Foveal densitometry in central serous choroidopathy, 359

Chandler's syndrome
Results of penetrating keratoplasty in the iridocorneal endothelial syndrome, 297

Children
Ectopic cilia and preseptal orbital cellulitis (letter), 119
Monocular nystagmus in infancy and early childhood, 504
Scleral buckling for retinal detachment in patients with retinoblastoma, 473

Chondroitin sulfate
Chondroitin sulfate in a new cornea preservation medium (letter), 112

Choroid
Acute sectorial choroidal ischemia, 707
Age-related macular degeneration (letter), 376
Chorioretinal damage in onchocerciasis (letter), 519
Foveal densitometry in central serous choroidopathy, 359
Importance of fluid absorption, traction, intraocular currents, and chorioretinal scars in the therapy of rhegmatogenous retinal detachments. XLI Edward Jackson Memorial Lecture, 681
19-9 monoclonal antibody study of adenocarcinoma metastatic to the choroid (letter), 815
Orbital extension of choroidal melanoma within a short posterior ciliary nerve (letter), 517
Punctate inner choroidopathy, 572

Chromatopsia
Prolonged complementary chromatopsia in users of video display terminals, 756

Cicatricial pemphigoid
Ocular cicatricial pemphigoid associated with hyperproliferation of the conjunctival epithelium, 37; correction, 388

Ciliary body
Antiglaucomatous ciliary body excision, 344

Ciliary nerve
Orbital extension of choroidal melanoma within a short posterior ciliary nerve (letter), 517

Cocaine
Cocaine test in normal patients (letter), 808

Coloboma
Uveal colobomas and Klinefelter's syndrome (letter), 241

Color vision
Foveal densitometry in central serous choroidopathy, 359
Prolonged complementary chromatopsia in users of video display terminals, 756

Complementary chromatopsia
Prolonged complementary chromatopsia in users of video display terminals, 756

Computed tomography
Cavernous hemangioma of the retina, cutaneous angiomas, and intracranial vascular lesion by computed tomography and nuclear magnetic resonance imaging, 483
Computed tomographic evaluation of the optic canal in sudden traumatic blindness, 751

Congenital disorders
Albinotic characteristics in congenital nystagmus (correspondence), 121
Albinotic characteristics in congenital nystagmus (correspondence), 650
Congenital corneal opacification secondary to Bowman's layer dysgenesis, 320
Reduced amplitude of oscillatory potentials in female carriers of X-linked recessive congenital stationary night blindness, 208

Conjunctiva
Absolute IgG4 deficiency and recurrent bacterial blepharokeratoconjunctivitis (letter), 243
Combined viable composite graft and temporal semicircular skin flap procedure, 349

Diagnosing sarcoidosis by transconjunctival biopsy of the lacrimal gland (correspondence), 640
Immunoglobulin deposition in localized conjunctival amyloidosis, 617
Immunologic basis for the pathogenesis of pterygium, 225
Ocular cicatricial pemphigoid associated with hyperproliferation of the conjunctival epithelium, 37; correction, 388
Therapy of Mooren's ulcer, 1
Treatment of acquired epithelial inclusion cyst of the conjunctiva using the YAG laser (letter), 807

Conjunctivitis
Clinical evaluation of trimethoprim-containing ophthalmic solutions in humans, 11
Interferon treatment of adenoviral conjunctivitis, 429

Contact lens
Biconcave contact lens for examination and laser treatment of the fundus in normal and gas-filled phakic eyes (letter), 806
Persistent corneal edema in aphakic eyes from daily-wear and extended-wear contact lenses, 329

Cornea
Absolute IgG4 deficiency and recurrent bacterial blepharokeratoconjunctivitis (letter), 243
Accidental heat destruction of corneal graft tissue (letter), 380
Acyclovir in the treatment of herpetic stromal disease, 537
Changes in corneal curvature induced by sutures and incisions, 773
Chondroitin sulfate in a new cornea preservation medium (letter), 112
Clinical and pathologic description of 17 cases of corneal intraepithelial neoplasia (correspondence), 383
Congenital corneal opacification secondary to Bowman's layer dysgenesis, 320
Contact thermal burns of the cornea from electric curling irons, 336
Corneal curvatures in premature infants (letter), 627; correction, 835
Corneal endothelial changes after argon laser iridotomy, 153
Corneal endothelial changes in type I and type II diabetes mellitus, 401
Corneal endothelial loss with new intraocular lenses, 157
Corneal white plaques caused by sulfacetamide eyedrops (letter), 378
Correlation between corneal endothelial morphology and function (editorial), 510
Effects of intravenous miconazole on fungal keratitis, 433
Expression of HLA antigens by cells in the human cornea, 763
HLA-B12 and HLA-B27 antigens in keratoplasty (correspondence), 245
Immunologic basis for the pathogenesis of pterygium, 225
Intravenous miconazole in the treatment of keratomycosis, 97:646; correction, 257
In vivo study of corneal surface morphologic features in patients with keratoconjunctivitis sicca, 426
Lack of evidence for protein AA reactivity in amyloid deposits of lattice corneal dystrophy and amyloid corneal degeneration, 216
Nosocomial exacerbation of Fuchs' endothelial dystrophy (letter), 513
Ocular effect of neodymium-YAG laser, 144
Opacification, vascularization, and chronic inflammation produced by hydrogel corneal lamellar implants, 422
Penetrating keratoplasty for exogenous *Paecilomyces* keratitis followed by postoperative endophthalmitis, 552
Persistent corneal edema in aphakic eyes from daily-wear and extended-wear contact lenses, 329
Quantitative analysis of endothelial mosaic pattern changes in anterior keratoconus, 43
Radiating folds in Descemet's membrane as a sign of impending corneal perforation (letter), 625
Results of penetrating keratoplasty for aphakic and pseudophakic bullous keratopathy, 302
Results of penetrating keratoplasty in the iridocorneal endothelial syndrome, 297
Serial alterations in endothelial cell shape and pattern after intraocular surgery, 313
Stellate iron lines in the corneal epithelium after radial keratotomy, 416
Ultrasonic findings after treatment of retinal detachment by intravitreal silicone instillation, 369

Corneoscleral limbus
Randomized comparison of surgical procedures for infantile esotropia (correspondence), 642
Randomized comparison of surgical procedures for infantile esotropia (correspondence), 643
Randomized comparison of surgical procedures for infantile esotropia (correspondence), 821

Corrections
Accidental YAG laser burn (letter), 116; correction, 828
Corneal curvatures in premature infants (letter), 627; correction, 835
Intravenous miconazole in the treatment of keratomycosis, 97:646; correction, 257
Ocular cicatricial pemphigoid associated with hyperproliferation of the conjunctival epithelium, 37; correction, 388
Structural factors in the pathogenesis of ischemic optic neuropathy, 105; correction, 395
Subretinal proliferation, 456; correction, 835
Successful treatment of fungal keratitis caused by *Paecilomyces lilacinus* (letter), 626; correction, 835

Corticosteroid
Penetrating keratoplasty for exogenous *Paecilomyces* keratitis followed by postoperative endophthalmitis, 552
Therapy of Mooren's ulcer, 1

Cotton-wool spot
Acquired immune deficiency syndrome retinopathy, pneumocystis, and cotton-wool spots (editorial), 235

Cryotherapy
Retinal cryotherapy in the management of proliferative diabetic retinopathy (letter), 240

Cup-disk ratio
Reliability of optic disk topographic measurements recorded with a video-ophthalmograph, 98
Structural factors in the pathogenesis of ischemic optic neuropathy, 105; correction, 395

Cyst
Treatment of acquired epithelial inclusion cyst of the conjunctiva using the YAG laser (letter), 807

Cystoid macular edema
Effect of primary capsulotomy with extracapsular surgery on the incidence of pseudophakic cystoid macular edema, 166

D

Descemet's membrane
Radiating folds in Descemet's membrane as a sign of impending corneal perforation (letter), 625
Successful treatment of fungal keratitis caused by *Paecilomyces lilacinus* (letter), 626; correction, 835

Diabetes
Corneal endothelial changes in type I and type II diabetes mellitus, 401
Diabetic retinopathy and insulin therapy in a rural diabetic population (correspondence), 646
Sea-fan neovascularization in diabetes with thalassemia (letter), 800

Diabetic retinopathy
Argon laser photocoagulation for diabetic retinopathy in a patient with hemophilia (letter), 818
Diabetic retinopathy and insulin therapy in a rural diabetic population (correspondence), 646

ABSTRACT INDEX

A

Acquired immune deficiency syndrome
Herpes zoster ophthalmicus in patients at risk for AIDS, 261
Albuminuria
Blood glucose control and the evolution of diabetic retinopathy and albuminuria, 533
Amblyopia
Bilateral central scotomata due to intracranial tumour, 830
Antigen
Autoimmunity and the outer retina, 673
Effect of prospective HLA-A and -B matching in 288 penetrating keratoplasties for herpes simplex keratitis, 829
Rheumatoid arthritis and sterile corneal ulceration, 669
Specific IgG in Graves' ophthalmopathy and its relation to retro-orbital and thyroid autoimmunity, 259
Anton's syndrome
Anton's syndrome accompanying withdrawal hallucinosis in a blind alcoholic, 533
Aqueous humor
Experimental investigations on the penetration into the eyeball of iron administered intraorbitally, 533
Hereditary ocular dysproteinhydria of the aqueous humour with crystalline deposits, 530
Aqueous tumor
Can macrophages cause obstruction to aqueous outflow in rabbits?, 833
Arthritis
Rheumatoid arthritis and sterile corneal ulceration, 669

B

Bacitracin
Efficacy of topical antibiotic therapy in acute conjunctivitis in children, 392
Basement membrane
Pathogenesis of tears of the retinal pigment epithelium, 831
Beta-blocker
Influence of topical beta-blockers on the breakup time, 834
Blepharospasm
Neuro-ophthalmic abnormalities in Tourette's syndrome. Functional and anatomic implications, 132
Blindness
Anton's syndrome accompanying withdrawal hallucinosis in a blind alcoholic, 533
Blindness following lacrimal gland surgery, 133
Computed tomographic findings in septo-optic dysplasia. Discordance between clinical and radiological findings, 671
Cortical blindness following bacterial meningitis. A case report with reassessment of prognosis and aetiology, 391
Blink
Persistence of the blink reflex to sudden illumination in a comatose patient, 129
Bromhexine
Lacrimal and salivary secretion in Sjögren's syndrome. The effect of systemic treatment with bromhexine, 528

C

***Candida* sp.**
Candida albicans endophthalmitis. Results of pars plana vitrectomy without intraocular antimycotic therapy, 392
Capsulotomy
Posterior capsulotomy and retinal detachment following extracapsular lens surgery, 669
Carcinoma
Hematoporphyrin derivative photoradiation therapy in managing nevoid basal-cell carcinoma syndrome, 528
Internuclear ophthalmoplegia and "optic neuritis." Paraneoplastic effects of bronchial carcinoma, 261
Carotid artery
Percutaneous transvascular treatment of giant carotid aneurysms. Neuro-ophthalmologic findings, 132
Cataract
Autosomal dominant anterior polar cataracts associated with a familial 2;14 translocation, 259
Cataracts after total body irradiation and marrow transplantation. A sparing effect of dose fractionation, 832
Development of posterior subcapsular cataracts in asthmatic children, 393
Localization of aldose reductase in the human eye, 530
Mitochondrial defects in Lowe's oculocerebrorenal syndrome, 389
Nuclear cataract and myopia during hyperbaric oxygen therapy, 258
Spheroliths of the lens, 261
Two cases of acutely developed cataract in diabetes mellitus, 528
Cavernous sinus
Orbital fine-needle aspiration biopsy in patients with cavernous sinus syndrome, 131
Ceftriaxone
Laboratory-acquired gonococcal conjunctivitis. Successful treatment with single-dose ceftriaxone, 263
Central retinal vein
Central retinal vein occlusion and general vascular pathology, 532
Chiasm
Computed tomographic findings in septo-optic dysplasia. Discordance between clinical and radiological findings, 671
Children
Cortical blindness following bacterial meningitis. A case report with reassessment of prognosis and aetiology, 391
Development of posterior subcapsular cataracts in asthmatic children, 393
Efficacy of topical antibiotic therapy in acute conjunctivitis in children, 392
Incidence of anterior pituitary deficiency after radiotherapy at an early age. Study in retinoblastoma, 128
Orbital tumors in children, 262
Risk factors for diabetic retinopathy in youth, 671
Syndrome of congenital retinal dystrophy and saccade palsy—a subset of Leber's amaurosis, 669
Use of visual training for reading disabilities, 672
Chloramphenicol
Cortical blindness following bacterial meningitis. A case report with reassessment of prognosis and aetiology, 391
Choriocapillaris
Relationship between retinal pigment epithelium and the choriocapillaris, 673
Chorioretinitis
Treatment of onchoceraciasis in hyperendemic communities in West Africa with small, gradually increasing doses of suramin, 670
Choroid
Management of choroidal malignant melanoma at Iowa, 834
Preliminary observations regarding the use of iodine-125 in the management of choroidal melanoma, 263
Preliminary results of proton beam irradiation of macular and paramacular melanomas, 831
Survival after treatment for malignant choroidal melanoma. Comparison between conservative therapy (106 Ru/106 Rh application) and enucleation with and without postoperative irradiation on the orbit, 260
Ciliary body
Decrease of anterior ciliary arterial pressure with increased ocular pressure, 671
Computed tomography
Computed tomographic findings in septo-optic dysplasia. Discordance between clinical and radiological findings, 671
Orbital tumors in children, 262
Cone
Relations between the human retinal cone and ganglion cell distribution, 533
Congenital disorders
Clinical spectrum of congenital optic nerve hypoplasia. Review of 51 patients, 530
Congenital hydrocephalus and eye abnormalities with severe developmental brain defects. Warburg's syndrome, 830
Extraocular muscle surgery in early infancy—anatomical factors, 260
Syndrome of congenital retinal dystrophy and saccade palsy—a subset of Leber's amaurosis, 669
Conjunctiva
Lymphocytic infiltrates of the conjunctiva and orbit. Immunohistochemical staining of 16 cases, 389
Radiation therapy of conjunctival and orbital lymphoid tumors, 833
Rheumatoid arthritis and sterile corneal ulceration, 669

Conjunctivitis
Beneficial effect of artificial tears made with autologous serum in patients with keratoconjunctivitis sicca, 390
Efficacy of topical antibiotic therapy in acute conjunctivitis in children, 392
Gonococcal ophthalmia neonatorum. The case for prophylaxis in tropical Africa, 391
Laboratory-acquired gonococcal conjunctivitis. Successful treatment with single-dose ceftriaxone, 263
Contrast sensitivity
Contrast sensitivity in asymmetric glaucoma, 130
Contrast sensitivity loss in multiple sclerosis, 392
Cornea
Beneficial effect of artificial tears made with autologous serum in patients with keratoconjunctivitis sicca, 390
Effect of prospective HLA-A and -B matching in 288 penetrating keratoplasties for herpes simplex keratitis, 829
Old versus young donor material for penetrating keratoplasties, 531
Pathogenesis of Mooren's ulcer. Some new concepts, 258
Rheumatoid arthritis and sterile corneal ulceration, 669
Topography of age-related changes in corneal endothelial cell size. Some preliminary microscopic observations, 532
Corticosteroid
Development of posterior subcapsular cataracts in asthmatic children, 393
Effect of fluorometholone (FML) on the intraocular pressure of corticosteroid responders, 832

D

Devic's disease
Neuromyelitis optica in the elderly, 668
Diabetes
Diabetic maculopathy, 393
Localization of aldose reductase in the human eye, 530
Ophthalmologic care for persons with diabetes, 259
Risk factors for diabetic retinopathy in youth, 671
Two cases of acutely developed cataract in diabetes mellitus, 528
Diabetic retinopathy
Alcohol. Another risk factor for diabetic retinopathy?, 129
Blood glucose control and the evolution of diabetic retinopathy and albuminuria, 533
Gravidity and diabetic retinopathy, 389
Influence of pregnancy on diabetic retinopathy with special regard to the reversible changes shown in 100 pregnancies, 829
Photocoagulation for proliferative diabetic retinopathy. A randomised controlled clinical trial using the xenon-arc, 130
Risk factors for diabetic retinopathy in youth, 671
Dolls' eye response
Eye movements induced by head rotation in unresponsive patients, 668

E

Edema
Diabetic maculopathy, 393
Electro-oculography
Importance of electrophysiology in ophthalmogenetics, 262
Electroretinography
Importance of electrophysiology in ophthalmogenetics, 262
Multiple evanescent white dot syndrome. I. Clinical findings, 389
Multiple evanescent white dot syndrome. II. Electrophysiology of the photoreceptors during retinal pigment epithelial disease, 390
Endophthalmitis
Candida albicans endophthalmitis. Results of pars plana vitrectomy without intraocular antimycotic therapy, 392
Endothelium
Old versus young donor material for penetrating keratoplasties, 531
Topography of age-related changes in corneal endothelial cell size. Some preliminary microscopic observations, 532
Enucleation
Management of choroidal malignant melanoma at Iowa, 834
Preliminary results of proton beam irradiation of macular and paramacular melanomas, 831
Survival after treatment for malignant choroidal melanoma. Comparison between conservative therapy (106 Ru/106 Rh application) and enucleation with and without postoperative irradiation on the orbit, 260
Extraocular muscle
Extraocular muscle surgery in early infancy—anatomical factors, 260
Oculocardiac reflex in adults, 830
Percutaneous transvascular treatment of giant carotid aneurysms. Neuro-ophthalmologic findings, 132
Eyelid
Blindness following lacrimal gland surgery, 133
Percutaneous transvascular treatment of giant carotid aneurysms. Neuro-ophthalmologic findings, 132
Proptosis and increase of intraocular pressure in voluntary lid fissure widening, 670
Thermal orbital injuries from disposable cauteries, 672

F

Fluorometholone
Effect of fluorometholone (FML) on the intraocular pressure of corticosteroid responders, 832
Fluorouracil
Recurrent acute toxic optic neuropathy secondary to 5-FU, 391
Fovea
Preliminary results of proton beam irradiation of macular and paramacular melanomas, 831

Orbital tumors in children, 262
HLA
Effect of prospective HLA-A and -B matching in 288 penetrating keratoplasties for herpes simplex keratitis, 829
Hydrocephalus
Congenital hydrocephalus and eye abnormalities with severe developmental brain defects. Warburg's syndrome, 830

Hyperplasia
Lymphocytic infiltrates of the conjunctiva and orbit. Immunohistochemical staining of 16 cases, 389

I

Immunoglobulin
Immunohistologic diagnosis of orbital lymphoid infiltrates, 128
Specific IgG in Graves' ophthalmopathy and its relation to retroorbital and thyroid autoimmunity, 259
Visual evoked potentials altered by serum IgG of patients with multiple sclerosis, 131
Immunology
Autoimmunity and the outer retina, 673
Herpes zoster ophthalmicus in patients at risk for AIDS, 261
Lymphocytic infiltrates of the conjunctiva and orbit. Immunohistochemical staining of 16 cases, 389
Pathogenesis of Mooren's ulcer. Some new concepts, 258
Rheumatoid arthritis and sterile corneal ulceration, 669
Specific IgG in Graves' ophthalmopathy and its relation to retroorbital and thyroid autoimmunity, 259
Infants
Absolute thresholds in human infants exposed to continuous illumination, 392
Delayed visual maturation, 128
Extraocular muscle surgery in early infancy—anatomical factors, 260
Gonococcal ophthalmia neonatorum. The case for prophylaxis in tropical Africa, 391
Topography of age-related changes in corneal endothelial cell size. Some preliminary microscopic observations, 532
Vitamin E protects against retinopathy of prematurity through action on spindle cells, 532
Intraocular foreign body
Experimental investigations on the penetration into the eyeball of iron administered intraorbitally, 533
Intraocular lens
Posterior capsulotomy and retinal detachment following extracapsular lens surgery, 669
Intraocular pressure
Can macrophages cause obstruction to aqueous outflow in rabbits?, 833
Decrease of anterior ciliary arterial pressure with increased ocular pressure, 671
Effect of fluorometholone (FML) on the intraocular pressure of corticosteroid responders, 832
Laser trabeculoplasty as primary therapy in chronic open angle glaucoma, 258
Proptosis and increase of intraocular pressure in voluntary lid fissure widening, 670
Significance of intraocular pressure measurement in systemic hypertension, 669
Iridocyclitis
Treatment of onchoceraciasis in hyperendemic communities in West Africa with small, gradually increasing doses of suramin, 670
Iris
Enlargement of laser iridotomies over time, 832
Hematoporphyrin photoradiation therapy for iris neovascularization, 529
Mass in the iris and a skin rash in a young man, 133
Iritis
Acute interstitial nephritis and iritis. Renal-ocular syndrome, 829

K

Keratitis
Effect of prospective HLA-A and -B matching in 288 penetrating keratoplasties for herpes simplex keratitis, 829
Keratoconjunctivitis sicca
Beneficial effect of artificial tears made with autologous serum in patients with keratoconjunctivitis sicca, 390
Keratoconus
Old versus young donor material for penetrating keratoplasties, 531
Keratoplasty
Effect of prospective HLA-A and -B matching in 288 penetrating keratoplasties for herpes simplex keratitis, 829
Old versus young donor material for penetrating keratoplasties, 531

L

Lacrimal apparatus
Blindness following lacrimal gland surgery, 133
Laser
Enlargement of laser iridotomies over time, 832
Laser trabeculoplasty and decay effects in glaucoma patients, 131
Laser trabeculoplasty as primary therapy in chronic open angle glaucoma, 258
Retinal branch vein occlusion. A study of argon laser photocoagulation in the treatment of macular edema, 258
Leber's amaurosis
Syndrome of congenital retinal dystrophy and saccade palsy—a subset of Leber's amaurosis, 669
Lens
Can macrophages cause obstruction to aqueous outflow in rabbits?, 833
Localization of aldose reductase in the human eye, 530
Spheroliths of the lens, 261
Lowe's syndrome
Mitochondrial defects in Lowe's oculocerebrorenal syndrome, 389
Lymphocyte
Lymphocytic infiltrates of the conjunctiva and orbit. Immunohistochemical staining of 16 cases, 389
Thymus-derived lymphocyte enumeration in patients with uveal malignant melanoma, 831
Lymphoma
Combined malignant lymphoma of the eye and CNS (reticulum-cell sarcoma), 833
Radiation therapy of conjunctival and orbital lymphoid tumors, 833

M

Macula
Importance of electrophysiology in ophthalmogenetics, 262
Multiple evanescent white dot syndrome. I. Clinical findings, 389
Preliminary results of proton beam irradiation of macular and paramacular melanomas, 831
Retinal branch vein occlusion. A study of argon laser photocoagulation in the treatment of macular edema, 258
Maculopathy
Diabetic maculopathy, 393
Melanoma
Hematoporphyrin photoradiation therapy for intraocular and orbital malignant melanoma, 390
Management of choroidal malignant melanoma at Iowa, 834
Neovascular glaucoma after photoradiation therapy for uveal melanoma, 390
Preliminary observations regarding the use of iodine-125 in the management of choroidal melanoma, 263
Preliminary results of proton beam irradiation of macular and paramacular melanomas, 831
Survival after treatment for malignant choroidal melanoma. Comparison between conservative therapy (106 Ru/106 Rh application) and enucleation with and without postoperative irradiation on the orbit, 260
Thymus-derived lymphocyte enumeration in patients with uveal malignant melanoma, 831
Mooren's ulcer
Pathogenesis of Mooren's ulcer. Some new concepts, 258
Multiple sclerosis
Central nervous system involvement in optic neuritis, 260
Contrast sensitivity loss in multiple sclerosis, 392
Visual evoked potentials altered by serum IgG of patients with multiple sclerosis, 131
Myelitis
Neuromyelitis optica in the elderly, 668
Myopia
Nuclear cataract and myopia during hyperbaric oxygen therapy, 258

N

***Neisseria* sp.**
Laboratory-acquired gonococcal conjunctivitis. Successful treatment with single-dose ceftriaxone, 263
Neovascularization
Hematoporphyrin photoradiation therapy for iris neovascularization, 529
Neovascular glaucoma after photoradiation therapy for uveal melanoma, 390
Neuroblastoma
Orbital tumors in children, 262
Neurofibromatosis
Intracranial enlargement of the orbital cavity and palpebral remodeling for orbitopalpebral neurofibromatosis, 262
Neuromyelitis optica
Neuromyelitis optica in the elderly, 668
Nevus
Hematoporphyrin derivative photoradiation therapy in managing nevoid basal-cell carcinoma syndrome, 528
Niemann-Pick disease
Progressive neurologic disorder with supranuclear vertical gaze paresis and distinctive bone marrow cells, 393

Night blindness
Vitamin A treatment for night blindness in primary biliary cirrhosis, 129
Nystagmus
Computed tomographic findings in septo-optic dysplasia. Discordance between clinical and radiological findings, 671
Delayed visual maturation, 128

O

Ocular adnexa
Radiation therapy of conjunctival and orbital lymphoid tumors, 833
Oculocardiac reflex
Oculocardiac reflex in adults, 830
Onchocerciasis
Treatment of onchocerciasis in hyperendemic communities in West Africa with small, gradually increasing doses of suramin, 670
Open-angle glaucoma
Laser trabeculoplasty as primary therapy in chronic open angle glaucoma, 258
Ophthalmia neonatorum
Gonococcal ophthalmia neonatorum. The case for prophylaxis in tropical Africa, 391
Ophthalmoplegia
Internuclear ophthalmoplegia and "optic neuritis." Paraneoplastic effects of bronchial carcinoma, 261
Reversible visual evoked potential abnormalities in vitamin E deficiency, 668
Optic atrophy
Treatment of onchocerciasis in hyperendemic communities in West Africa with small, gradually increasing doses of suramin, 670
Optic disk
How does the retina transform light?, 672
Infiltrative orbitopathy, optic disk edema and POEMS, 132
Laser trabeculoplasty as primary therapy in chronic open angle glaucoma, 258
Optic nerve
Antigalactocerebroside serum demyelinates optic nerve in vivo, 671
Bilateral central scotomata due to intracranial tumour, 830
Blood vessels of the glaucomatous optic disc in experimental primate and human eyes, 670
Clinical spectrum of congenital optic nerve hypoplasia. Review of 51 patients, 530
Computed tomographic findings in septo-optic dysplasia. Discordance between clinical and radiological findings, 671
Hypoplastic optic nerves and pituitary dysfunction, 129
Importance of electrophysiology in ophthalmogenetics, 262
Neuromyelitis optica in the elderly, 668
Orbital tumors in children, 262
Optic neuritis
Central nervous system involvement in optic neuritis, 260
Internuclear ophthalmoplegia and "optic neuritis." Paraneoplastic effects of bronchial carcinoma, 261
Optic neuropathy
Recurrent acute toxic optic neuropathy secondary to 5-FU, 391
Orbit
Hematoporphyrin photoradiation therapy for intraocular and orbital malignant melanoma, 390
Immunohistologic diagnosis of orbital lymphoid infiltrates, 128
Infiltrative orbitopathy, optic disk edema and POEMS, 132
Intracranial enlargement of the orbital cavity and palpebral remodeling for orbitopalpebral neurofibromatosis, 262
Lymphocytic infiltrates of the conjunctiva and orbit. Immunohistochemical staining of 16 cases, 389
Magnetic resonance imaging of the orbit, 133
Orbital fine-needle aspiration biopsy in patients with cavernous sinus syndrome, 131
Orbital tumors in children, 262
Radiation therapy of conjunctival and orbital lymphoid tumors, 833
Specific IgG in Graves' ophthalmopathy and its relation to retroorbital and thyroid autoimmunity, 259
Survival after treatment for malignant choroidal melanoma. Comparison between conservative therapy (106 Ru/106 Rh application) and enucleation with and without postoperative irradiation on the orbit, 260
Thermal orbital injuries from disposable cauteries, 672

P

Pars plana vitrectomy
Candida albicans endophthalmitis. Results of pars plana vitrectomy without intraocular antimycotic therapy, 392
Vitrectomy in severe ocular trauma, 834
Penetrating keratoplasty
Effect of prospective HLA-A and -B matching in 288 penetrating keratoplasties for herpes simplex keratitis, 829
Old versus young donor material for penetrating keratoplasties, 531
Photocoagulation
Photocoagulation for proliferative diabetic retinopathy. A randomised controlled clinical trial using the xenon-arc, 130
Retinal branch vein occlusion. A study of argon laser photocoagulation in the treatment of macular edema, 258
Photoreceptor cell
Multiple evanescent white dot syndrome. I. Clinical findings, 389
Multiple evanescent white dot syndrome. II. Electrophysiology of the photoreceptors during retinal pigment epithelial disease, 390
Pigment epithelium
Autoimmunity and the outer retina, 673
Multiple evanescent white dot syndrome. I. Clinical findings, 389
Multiple evanescent white dot syndrome. II. Electrophysiology of the photoreceptors during retinal pigment epithelial disease, 390
Pathogenesis of tears of the retinal pigment epithelium, 831
Relationship between retinal pigment epithelium and the choriocapillaris, 673
Retinitis pigmentosa. A quantitative study of the apical membrane of normal and dystrophic human retinal pigment epithelial cells in tissue culture in relation to phagocytosis, 531
Polymyxin
Efficacy of topical antibiotic therapy in acute conjunctivitis in children, 392
Proliferative vitreoretinopathy
Clinical factors predisposing to massive proliferative vitreoretinopathy in rhegmatogenous retinal detachment, 262
Proptosis
Orbital tumors in children, 262
Proptosis and increase of intraocular pressure in voluntary lid fissure widening, 670
Pseudoexfoliation
Laser trabeculoplasty as primary therapy in chronic open angle glaucoma, 258
Pseudotumor
Lymphocytic infiltrates of the conjunctiva and orbit. Immunohistochemical staining of 16 cases, 389
Pterygium
Pterygium and ultraviolet radiation. A positive correlation, 529
Pterygium in welders, 530
Pupil
Delayed visual maturation, 128
Infiltrative orbitopathy, optic disk edema and POEMS, 132

R

Radiation therapy
Cataracts after total body irradiation and marrow transplantation. A sparing effect of dose fractionation, 832
Hematoporphyrin derivative photoradiation therapy in managing nevoid basal-cell carcinoma syndrome, 528
Hematoporphyrin photoradiation therapy for intraocular and orbital malignant melanoma, 390
Hematoporphyrin photoradiation therapy for iris neovascularization, 529
Incidence of anterior pituitary deficiency after radiotherapy at an early age. Study in retinoblastoma, 128
Neovascular glaucoma after photoradiation therapy for uveal melanoma, 390
Preliminary results of proton beam irradiation of macular and paramacular melanomas, 831
Radiation therapy of conjunctival and orbital lymphoid tumors, 833
Survival after treatment for malignant choroidal melanoma. Comparison between conservative therapy (106 Ru/106 Rh application) and enucleation with and without postoperative irradiation on the orbit, 260
Reading disabilities
Use of visual training for reading disabilities, 672
Reticulum cell sarcoma
Combined malignant lymphoma of the eye and CNS (reticulum-cell sarcoma), 833
Retina
Autoimmunity and the outer retina, 673
Central retinal vein occlusion and general vascular pathology, 532
Clinical factors predisposing to massive proliferative vitreoretinopathy in rhegmatogenous retinal detachment, 262
Congenital hydrocephalus and eye abnormalities with severe developmental brain defects. Warburg's syndrome, 830
How does the retina transform light?, 672
Multiple evanescent white dot syndrome. I. Clinical findings, 389

Multiple evanescent white dot syndrome. II. Electrophysiology of the photoreceptors during retinal pigment epithelial disease, 390
Pathogenesis of tears of the retinal pigment epithelium, 831
Regional specialization of retinal glial cell membrane, 261
Relations between the human retinal cone and ganglion cell distribution, 533
Relationship between retinal pigment epithelium and the choriocapillaris, 673
Retinal branch vein occlusion. A study of argon laser photocoagulation in the treatment of macular edema, 258
Syndrome of congenital retinal dystrophy and saccade palsy—a subset of Leber's amaurosis, 669

Retinal detachment
Clinical factors predisposing to massive proliferative vitreoretinopathy in rhegmatogenous retinal detachment, 262
Posterior capsulotomy and retinal detachment following extracapsular lens surgery, 669

Retinitis pigmentosa
Relationship between retinal pigment epithelium and the choriocapillaris, 673
Retinitis pigmentosa. A quantitative study of the apical membrane of normal and dystrophic human retinal pigment epithelial cells in tissue culture in relation to phagocytosis, 531
Reversible visual evoked potential abnormalities in vitamin E deficiency, 668

Retinoblastoma
Chromosome fragility in patients with sporadic unilateral retinoblastoma, 130
Excess of cancer deaths in close relatives of patients with bilateral retinoblastoma, 834
Incidence of anterior pituitary deficiency after radiotherapy at an early age. Study in retinoblastoma, 128

Retinopathy
Alcohol. Another risk factor for diabetic retinopathy?, 129
Blood glucose control and the evolution of diabetic retinopathy and albuminuria, 533
Gravidity and diabetic retinopathy, 389
Influence of pregnancy on diabetic retinopathy with special regard to the reversible changes shown in 100 pregnancies, 829
Photocoagulation for proliferative diabetic retinopathy. A randomised controlled clinical trial using the xenon-arc, 130
Risk factors for diabetic retinopathy in youth, 671

Retinopathy of prematurity
Vitamin E protects against retinopathy of prematurity through action on spindle cells, 532

Rhabdomyosarcoma
Orbital tumors in children, 262

S

Saccades
Syndrome of congenital retinal dystrophy and saccade palsy—a subset of Leber's amaurosis, 669

Scotoma
Bilateral central scotomata due to intracranial tumour, 830

Sjögren's syndrome
Beneficial effect of artificial tears made with autologous serum in patients with keratoconjunctivitis sicca, 390
Lacrimal and salivary secretion in Sjögren's syndrome. The effect of systemic treatment with bromhexine, 528

Strabismus
Extraocular muscle surgery in early infancy—anatomical factors, 260

T

T cell
Immunohistologic diagnosis of orbital lymphoid infiltrates, 128
Rheumatoid arthritis and sterile corneal ulceration, 669
Thymus-derived lymphocyte enumeration in patients with uveal malignant melanoma, 831

Tear
Pathogenesis of tears of the retinal pigment epithelium, 831

Tears
Beneficial effect of artificial tears made with autologous serum in patients with keratoconjunctivitis sicca, 390
Influence of topical beta-blockers on the breakup time, 834

Trabecular meshwork
Can macrophages cause obstruction to aqueous outflow in rabbits?, 833

Trabeculoplasty
Laser trabeculoplasty and decay effects in glaucoma patients, 131
Laser trabeculoplasty as primary therapy in chronic open angle glaucoma, 258

Tumor
Bilateral central scotomata due to intracranial tumour, 830

U

Ulcer
Pathogenesis of Mooren's ulcer. Some new concepts, 258
Rheumatoid arthritis and sterile corneal ulceration, 669

Uvea
Hematoporphyrin photoradiation therapy for intraocular and orbital malignant melanoma, 390
Neovascular glaucoma after photoradiation therapy for uveal melanoma, 390
Thymus-derived lymphocyte enumeration in patients with uveal malignant melanoma, 831

V

Visual acuity
Contrast sensitivity loss in multiple sclerosis, 392
Multiple evanescent white dot syndrome. I. Clinical findings, 389
Multiple evanescent white dot syndrome. II. Electrophysiology of the photoreceptors during retinal pigment epithelial disease, 390
Treatment of onchocerciasis in hyperendemic communities in West Africa with small, gradually increasing doses of suramin, 670
Vitrectomy in severe ocular trauma, 834

Visual-evoked potential
Deliberate alteration of the visual evoked potential, 531
Reversible visual evoked potential abnormalities in vitamin E deficiency, 668
Visual evoked potentials altered by serum IgG of patients with multiple sclerosis, 131

Visual field
Bilateral central scotomata due to intracranial tumour, 830
Laser trabeculoplasty as primary therapy in chronic open angle glaucoma, 258

Visual loss
Recurrent acute toxic optic neuropathy secondary to 5-FU, 391

Visual tracking
Eye tracking dysfunction in Alzheimer-type dementia, 131

Vitamin
Reversible visual evoked potential abnormalities in vitamin E deficiency, 668
Vitamin A treatment for night blindness in primary biliary cirrhosis, 129
Vitamin E protects against retinopathy of prematurity through action on spindle cells, 532

Vitrectomy
Candida albicans endophthalmitis. Results of pars plana vitrectomy without intraocular antimycotic therapy, 392
Evaluation of vitrectomy in penetrating ocular trauma, 529
Vitrectomy in severe ocular trauma, 834

Vitreous
Clinical factors predisposing to massive proliferative vitreoretinopathy in rhegmatogenous retinal detachment, 262
Regional specialization of retinal glial cell membrane, 261

W

Warburg's syndrome
Congenital hydrocephalus and eye abnormalities with severe developmental brain defects. Warburg's syndrome, 830
